

Dipendra Shrestha

Senior Professional, Aerodromes and Ground Aids
P Eng. (Airport Project Management)

Kathmandu, Bagmati Province, Nepal
dpndrs@gmail.com, 9851103765

PROFILE

Aerodrome engineering and safety management professional with 18+ years of experience in civil aviation. Skilled in aerodrome design, certification, and operations, as well as ICAO Annex 14 compliance and safety management. Successfully led the USD 150 million Government and ADB-financed Tribhuvan International Airport (VNKT) infrastructure program, producing the first Safety Risk Assessment for the new taxiway activation routes and international aircraft parking apron. Experienced in training delivery and capacity building through the Civil Aviation Academy Nepal.

MAJOR ACHIEVEMENTS

- Initiated and led the USD 150 million ADB - financed airport infrastructure modernization program at VNKT as Project Director covering runway rehabilitation, taxiway extensions (new taxiways 'P'↔'S'/'T'/'U' to connect runway-20 and new taxiways 'V'/'E'↔'P'↔'K'/'L' to connect runway-02), conversion of taxiways 'B' & 'C' to rapid exit taxiways, international apron expansion, terminal upgrades, AGL/NAVAIDS renewal, RESA and runway & taxiway strip construction. Program aligns with ICAO Annex 14 Volume I and ADB Safeguard Policy Statement.
- Produced the first-ever Safety Risk Assessment (Bow-Tie methodology per ICAO Doc 9859) for operational activation of the new taxiway routes 'F'↔'H'↔'P'↔'S'/'T'/'U' (towards runway-20), 'F'↔'V'/'E'↔'P'↔'K'/'L' (towards runway-02) and rapid exit taxiways 'B' & 'C' at VNKT establishing a precedent for evidence-based operational change management at Nepal's international airport.
- Engaged continuously in ICAO's AP-ADO Task Force (TF/1 through TF/7) contributing working papers and technical inputs on aerodrome design standards/regional altiports guidance, alternative means of compliance, and SARPs harmonization for the Asia-Pacific region.
- Served as a member of the ICAO Aerodrome Design and Operations Panel (ADOP) - contributing to the drafting and review of global aerodrome standards (altiports guidance) under ICAO's formal regulatory development process.
- Established the first structured aerodrome safety management framework at CAAN aligned with ICAO Doc 9859 (4th Edition), integrating SMS into airport operations, engineering change management, and contractor supervision.
- Gained registration as a 'Professional Engineer' with the Nepal Engineering Council (NEC No. 3251) - demonstrating the highest standard of technical competence recognized under Nepal's engineering regulatory framework.
- Selected among top candidates globally for final interview stage for Regional Officer, Aerodrome and Ground Aids (RO/AGA), International Civil Aviation Organization, in 2025.

EMPLOYMENT RECORDS

Project Director – SASEC Airport Capacity Enhancement Project, Civil Aviation Authority of Nepal (CAAN)

SEP 2021 — PRESENT

(L-10 since July 14, 2022)

- ◆ Directed the ADB-financed VNKT airport infrastructure capital program valued at USD 150 million, overseeing planning, procurement, contract administration, construction supervision, and commissioning.
- ◆ Coordinated with ADB, Ministry of Culture, Tourism and Civil Aviation (MoCTCA), and CAAN leadership to ensure adherence to ADB Safeguard Policy, environmental and social commitments, and timely disbursement milestones.
- ◆ Managed multi-disciplinary teams of international and domestic consultants, contractors, and government technical teams across simultaneous work packages, including runway, taxiway, apron, AGL, NAVAIDS, terminal, and drainage.
- ◆ Led safety risk management processes utilizing ICAO Doc 9859 Bow-Tie methodology to address operational changes arising from infrastructure works while ensuring ICAO Annex 14 compliance and airport operations continuity during construction.

Senior Aerodrome Engineer / Deputy Director, Civil Aviation Authority of Nepal (CAAN)

DEC 2013 — SEP 2021

(L-9 since February 15, 2017)

- ◆ Planned, designed, and supervised the construction of major aerodrome infrastructure at VNKT and domestic airports, including runways, taxiways, aprons, terminal buildings, drainage, fencing, lighting, and navigational aids.
- ◆ Conducted aerodrome certification inspections and compliance audits against ICAO Annex 14 Volume I, ensuring adherence to international safety standards.
- ◆ Reviewed aerodrome manuals, obstacle limitation surfaces, declared distances, and design drawings to maintain regulatory compliance and enhance operational safety.
- ◆ Actively participated in ICAO APAC AP-ADO Task Force meetings, contributing technical papers and representing Nepal's position on aerodrome standards.
- ◆ Delivered training on aerodrome engineering and airside operations safety at the Civil Aviation Academy Nepal, fostering capacity building in the aviation sector.

Aerodrome Engineer / Senior Officer, Civil Aviation Authority of Nepal (CAAN)

JAN 2008 — DEC 2013

(L-7 since January 03, 2008) (L-8 since March 18, 2012)

- ◆ Executed engineering surveys, prepared designs, and supervised construction for airport pavement, drainage, and civil infrastructure at VNKT and regional airports.
- ◆ Supported aerodrome operations inspections in compliance with CAAN's Aerodrome Safety Standards Department.
- ◆ Assisted in the preparation of bid documents, technical specifications, and managed contracts for airport civil works funded by government and donor programs.

KEY FOCUS AREAS

- ✎ Plan, design, oversee, and commission aerodrome infrastructure projects in compliance with ICAO Annex 14 Volume I and national aerodrome regulations.
- ✎ Manage ADB and donor-financed capital programs including ADB Safeguard compliance, environmental and social management, disbursement tracking, and reporting.
- ✎ Lead aerodrome certification processes: review aerodrome manuals, conduct site inspections, verify declared distances, obstacle limitation surfaces, and pavement strength data.
- ✎ Conduct safety risk assessments for aerodrome design changes and new infrastructure activations using ICAO Doc 9859 (SMS) Bow-Tie and fault tree methodologies.
- ✎ Contribute to ICAO AP-ADO Task Force meetings — developing regional guidance material, working papers, and recommendations on aerodrome design and operations.
- ✎ Review and update national aerodrome regulations, engineering circulars, design standards, and technical guidance documents for transposition of ICAO SARPs.

- ✦ Coordinate multi-stakeholder airport projects involving contractors, international consultants, regulators, airlines, and ground handling agencies.
- ✦ Deliver aerodrome engineering and operations training programmes for CAAN staff, airport personnel, and regional aviation professionals through Civil Aviation Academy Nepal.
- ✦ Provide expert dispute resolution services as SIAC arbitrator in aviation infrastructure contract disputes.
- ✦ Mentor and coach junior engineers and technical officers in aerodrome engineering, project management, and ICAO regulatory compliance.

CORE COMPETENCIES

- ◆ Aerodrome Design and Operation
- ◆ Regulatory Oversight
- ◆ Aerodrome Certification
- ◆ Aerodrome Compliance Audits
- ◆ Analytical Skills
- ◆ Communication
- ◆ Training and Mentoring
- ◆ Capacity Building
- ◆ Hazard Identification
- ◆ Risk Assessments
- ◆ Safety Management
- ◆ ICAO SARPs Implementation
- ◆ Project Management
- ◆ Contract Administration
- ◆ FIDIC Contracts, Procurement
- ◆ Multi-Stakeholder Coordination

ICAO & INTERNATIONAL ENGAGEMENT

ICAO Aerodrome Design and Operations Panel (ADOP). Member, contributing to global aerodrome SARPs (aerodromes guidance) development and amendment processes.

Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF). Active expert participant from TF/1 through TF/7, representing Nepal and contributing working papers on aerodrome standards, alternative means of compliance, and obstacle limitation.

ICAO Asia/Pacific Wildlife Hazard Management Working Group (AP-WHM/WG). Participant.

ICAO APANPIRG. Participated in aerodrome-related agenda items through APAC regional coordination.

Singapore International Arbitration Centre (SIAC). Contributor for aviation infrastructure dispute resolution.

ADB. Extensive operational engagement as Project Director for ADB Loan programs, including procurement, safeguards, and Grant management at CAAN.

MEMBERSHIP IN PROFESSIONAL ASSOCIATIONS/INSTITUTIONS

- ◆ **Professional Engineer**, Nepal Engineering Council, Registration No. 3251/08/082/83
- ◆ **Life Member**, Society of Transport Engineers Nepal, Membership No. 0159L
- ◆ **Life Member**, Nepal Engineering Association, Membership No. 6943 'Civil'
- ◆ **Life Member**, Nepal Council of Arbitration
- ◆ **General Member**, Civil Engineering Society of CAAN

EDUCATIONAL BRIEF

M.Sc. Engineering Management, Acme Engineering College, Purbanchal University, Nepal
First Division with Distinction, 2009 - 2011

B.E. Civil Engineering, Kathmandu Engineering College, Tribhuvan University, Nepal
First Division, 1999 - 2003

Diploma in Civil Engineering, Institute of Engineering Pulchowk Campus, Tribhuvan University, Nepal
First Division, 1994 - 1997

Certifications & Professional Development
Core ICAO AGA Alignment: Oversight, USOAP, Certification, Compliance

- ◆ USOAP CMA Phase 1 & Phase 2 (AGA), Feb & Apr 2026
- ◆ Safety Risk Management, Mar 2026
- ◆ Technical Auditors Training, Nov 2016
- ◆ Aviation Safety Oversight Inspectors Course - AGA, Jun 2014
- ◆ Aerodrome Surveillance Inspection / Audit OJT, Dec 2014
- ◆ ICAO Safety Management System (SMS) Course, Jul 2011
- ◆ ICAO State Safety Programme (SSP) Training, Jan 2011
- ◆ Aerodrome Certification Course, Jan 2009

Technical AGA Specialization SARPs Implementation, Aerodrome Engineering, Runway Safety

- ◆ Airport Pavement Tech. Workshop, Nov 2018
- ◆ Safety during Construction at Airport, Mar 2015
- ◆ Flexible Pavements in Airports, Mar 2015
- ◆ Runway Surface Condition Assessment & Reporting, Nov 2012
- ◆ Pavement Analysis Training

ICAO / International Meetings Attended

- Seventh Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/7) - ICAO APAC Office, Bangkok, Thailand, 17 - 20 February 2026. Presented Working Paper (WP/16) on Developing Guidance Material for the use of "As Far As Practicable" (AFAP) and related phrases in ICAO Annex 14, Volume I, on behalf of Nepal (Lead) and co-sponsors Australia, Malaysia, New Zealand, and Pakistan.
- South Asia Subregional Economic Cooperation (SASEC) Transport Working Group (TWG) Meeting - Kathmandu, Nepal, 2 - 3 December 2025. Discussed utilization of Gautam Buddha International Airport (VNBW), Pokhara International Airport (VNPR), and Tribhuvan International Airport (VNKT) for trade facilitation.
- ICAO Asia/Pacific Wildlife Hazard Management Workshop and AP-WHM/WG/7 - Pokhara, Nepal, May 2025
- SOTEN 3rd International Conference "Towards Safe, Sustainable, Efficient, and Resilient Mobility" - Kathmandu, Nepal, 11 - 13 Apr 2025. Presented paper on Extension of Parallel Taxiways, Expansion of International Apron and Hangar Area Development at Tribhuvan International Airport.
- Sixth Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/6) - Langkawi, Malaysia, Feb 2025. Presented PPT/01 on Expansion of Tribhuvan International Airport on behalf of Nepal.
- 7th US-India Aviation Summit. Washington D.C., USA, Jun 2024.
- Second Changi Aviation Summit. Singapore, Feb 2024.
- Fifth Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/5) - Chiang Rai, Thailand, Jan 2024

High-Value Regional Advisory, Implementation, Capacity Building

- ◆ Professional Engineering Registration Certificate (P Eng.), Nepal Engineering Council, Nov 2025
- ◆ Advanced Aviation Management Course (32 days), Sep 2025
- ◆ Authorized ATS-ATO Instructor (AGA domain), Jul 2025
- ◆ Civil Aviation Master Planning (CAMP), Oct 2022
- ◆ Disaster Response & Emergency Preparedness, Sep 2018
- ◆ Instructor Training Course (TRAINAIR PLUS), Apr 2017
- ◆ Human Factors in Aviation, Nov 2014

Governance, project, compliance support

- ◆ Project Management, Oct 2016
- ◆ Contract Management of Works, Dec 2015
- ◆ Environmental Management in Construction, Nov 2015
- ◆ Regional Procurement Training, Dec 2014
- ◆ Procurement & Dispute Resolution, Apr 2014

- Fourth Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/4) – Jan2023
- 41st Session of the ICAO Assembly - ICAO Headquarters, Montreal, Canada, Sep 2022.
- Third Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/3) - Video Conference, Feb 2022
- Sixth Meeting of the Aerodromes Operations and Planning Sub-Group (AOP/SG/6) - Video Teleconference, Jun 2022
- Second Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/2) - Video Conference, Jan 2021
- First Meeting of the Asia/Pacific Aerodrome Design and Operations Task Force (AP-ADO/TF/1)
- ADB Annual Aviation Sector Reviews and Donor Coordination Meetings - Various years

IT SKILLS

AutoCAD	MS Project	MS Office Suite (Excel, Word, PowerPoint, Access)
ArcGIS (basic)	BIM (basic)	Airport Design Software
Project management platforms		Internet applications

LANGUAGES

Nationality: Nepali **Marital Status:** Married

Linguistic Abilities: English (Proficient in Spoken and Written), Nepali, Hindi, Newari
