Top Skills

Aerodrome Engineer
Aerodrome Safety
Aerodrome and Ground Aids (AGA)

Languages

Hindi (Elementary)
Nepali (Full Professional)
English (Professional Working)
Nepal Bhasa (Elementary)

Certifications

Aerodrome Certification Course
(19-21 January, 2009)
ICAO State Safety Programme
(SSP) Training Course (26-28
January, 2011)
Technical Auditors Training (08-29
November, 2016)
AutoCAD Land Development (17
November - 19 December, 2005)
Special Training on GIS (19
September - 03 October, 2013)

Dipendra Shrestha, PEng

Project Director, Air Transport Capacity Enhancement Project, CAA
Nepal
Kathmandu, Bāgmatī, Nepal

Experience

Civil Aviation Authority of Nepal
18 years 3 months

Project Director
September 2021 - Present (4 years 7 months)
Kathmandu, Nepal

Implementation of following airport construction contracts:

o Contract package no. OCB-01/ACE-SDP/TIA/2022: Extension of parallel taxiway to connect runway-02 at TIA and Associated Works. (Major components of works are 600,000 cubic meter embankment with 20 m high reinforced earth wall, 1600 m long taxiway pavement with asphalt concrete and AGL system, 1200 m long storm water drainage of capacity 5.40 cu m/s, 2000 m long and 7.50 m wide service road etc. (Contract signed on: 23rd November 2022; Status: Ongoing).

o Contract package no. OCB-02/ACE-SDP/TIA/2020: Hangar area development at east side of TIA and Associated Works. (Major components of works are 700,000 cubic meter embankment with 16 m high retaining wall, two cement concrete aprons of total area of 95,345 sq. m with AGL and AFL, two asphalt concrete taxiways pavement of total length of 515 m with and AGL system, 800 m long storm water drainage of capacity 5.50 cum/s, 1000 m long and 7.50 m wide service road etc. (Contract signed on: 10th June 2022; Status: Ongoing).

o Contract Package no. ATCEP/ICB-01R: Expansion of International Apron, Parallel Taxiway to connect runway 20 and Associated Works. Major components of works are - approx. 2,000,000 cubic meter embankment construction with 26 m high reinforced earth wall, cement concrete aprons of total 129,150 sq. m area to accommodate 12-18 international aircrafts with AGL and AFL, one parallel and two exit taxiways with asphalt concrete pavement of total length of 800 m with and AGL system, 800 m long storm water drainage of 30 cum/s capacity, 800 m long and 7.50 m wide service

road, 47500 sq. m area embankment and grading for fuel farm etc. (Contract signed on: 20 January 2020; Status: Ongoing)

ICAO Asia/Pacific Aerodrome Design and Operations Task Force (focused on the development of Draft Regional Guidance for the Design and Operations of Airports).

Deputy Project Director

December 2013 - September 2021 (7 years 10 months)

Kathmandu, Nepal

Implementation of following Airport Construction Contracts:

o Contract Package no. TIACAO/CED/ICB/01/2016-17: Rehabilitation of Runway and Taxiways of TIA.

Major components - milling out the existing rwy and twy pavements using milling machines up to a depth of 26 cm by closing the airport operation for 10 hours (10 pm - 08 am) daily, correction of rwy x-sectional cambers, laying of 2 layers of KJELLBASE base course of 10 cm each, open the airport for operation every morning, laying of surface course of 6.5 cm, improvement of twy fillets, new RCLL, reconfig. of the rwy edge lights and installation of LED rwy and twy edge lights, installation of subsurface drainages surrounding the rwy etc. (05 Nov 2018 - 28 Dec 2019)

o Contract Package no. ATCEP/NCB-01: Runway Extension and Associated Works at TIA.

Major components - 300 m runway extension with turning pad, 60 m Strip and 240 m RESA, new PALS of 870 m, RCLL, runway edge lights, threshold lights, rwy end lights etc. for 300 m extension, 600 m storm water drainage, 600 m perimeter service road etc. (19 Dec 2018 - 31 Dec 2020)

o Contract Package no. ATCEP/NCB-02: Expansion and Refurbishment of ITB and Associated Works.

Major components - Expansion of ITB Gate Lounge, Arrival Concourse and Arrival Baggage Claim area, Construction of Aircraft Apron and Ramp Bus Roads, Installation of new BHS with inline X-ray, Fire Hydrant System, Fire Alarm System, FIDS, Pax. Announce system, Airport Security System, Power Supply Substations, installation of 900 KVA Generator, UPS etc. (30 Aug 2017 - 31 Jan 2023)

o Contract Package no. ATCEP/NCB-03: Utility Works at TIA.

Major components – Airport Water Supply System with new deep wells (about 300 m depth), purification system, piping network, power supply; new Pump House with underground water tanks, internal fire hydrant system, piping work, power supply, installation of 50kw generator; New sewage treatment plant system; Incinerator Facilities etc. (30 Oct 2017 - 27 Dec 2020)

Deputy Manager

March 2012 - December 2013 (1 year 10 months)

Kathmandu, Bāgmatī, Nepal

Execution of following construction and maintenance works of airport facilities in Tribhuvan International Airport (TIA):

- o Construction Annex Domestic Terminal Building at TIA.
- o Annual Maintenance and Preservation of Runway, Taxiway and Associated Works.
- o Runway Side Strip Grading Works at TIA.
- o Marking Works for Runway, Taxiway, Aprons and Airside Roads at TIA.
- o Construction of New Service Road at Domestic Aircraft Parking Apron at TIA.
- o Deep Bore (8" Dia.) Drilling work for water for fire-fighting station at TIA.
- o Construction of Security Chain-Link Fence at TIA.
- o Extension of Domestic Car Park at TIA.
- o Maintenance of Grass/Lawn at Airside and Landside.

Senior Officer (Civil Engineering)

January 2008 - March 2012 (4 years 3 months)

Nepal

Involved in procurement and execution of following airport construction contracts:

- o Strengthening and Overlay of Runway, Taxiway, Aircraft Parking Apron, Airside Roads, Landside Roads and Car Parking Area at Gautam Buddha Airport.
- o Strengthening of Runway, Taxiway and Apron Pavements with Asphalt Concrete at Simikot Airport.

Education

Acme Engineering College

Master of Science, Engineering Management · (August 2009 - November 2011)

Kathmandu Engineering College

Bachelor's degree, Civil Engineering · (August 1999 - September 2003)

Tribhuvan University, IOE, Pulchowk Campus

Diploma, Civil Engineering · (July 1994 - August 1997)
